- School Safety Resources
  - <u>Description:</u> In addition to helping keep schools safe from violent attacks, DOJ will be closely monitoring for behavior that could affect a school's ability to pay market rates for products like door locks and shatter-resistant film for glass. DOJ will review and investigate any instances of inappropriate pricing behavior so the benefits of the program are not reduced.

In response to the legislation, I convened a statewide ad hoc committee to develop non-regulatory guidance for communities.
