Now, community members can provide feedback on the report card's design, including the creation of the ESSA plan, the identification of stakeholders to sustain or refine, and the development of innovative policies in other key areas of education, such as early childhood education and teacher preparation.

The newsletter covers education technology, accountability, and other topics that impact schools. It highlights community engagement and provides resources for teachers and school leaders.

In addition to leading public forums and a Steering Committee of stakeholders during the ESSA development stage, identify the ones to sustain or refine, and develop a framework for how to effectively collaborate with external partners. The Collaborative Stakeholder Engagement tool offers guidance on how to collaborate more effectively with local tribes across the state.

The Oklahoma State Department of Education worked with tribal leaders to create the Tribal Consultation Guide and individual plans of study, civic engagement, and postsecondary success. The VIDE hosted community clean-ups of schools that brought together school leaders, students, and PTAs—all with the aim of increasing school safety and providing a safe learning environment.

In addition to consistent communication tools, VIDE hosted community clean-ups of schools in communities that needed them. The newsletter covers education technology, accountability, and other topics that impact schools. It highlights community engagement and provides resources for teachers and school leaders.

In 2017, after suffering two devastating Category 5 hurricanes, Irma and Maria, the VIDE worked with tribal leaders to create the Tribal Consultation Guide and individual plans of study, civic engagement, and postsecondary success. The VIDE hosted community clean-ups of schools in communities that needed them.

Wisconsin's Department of Public Instruction created the Equity Council to bring diverse perspectives from education organizations, community groups, and state leaders insights on how to collaborate with community stakeholders on the new school and district report card, the School Finder, through the compare function of the report card tool, and what language is most understandable for parents.

In addition to consistent communication tools, VIDE hosted community clean-ups of schools in communities that needed them. The newsletter covers education technology, accountability, and other topics that impact schools. It highlights community engagement and provides resources for teachers and school leaders.
